Patient Consent Form

New federal requirements regarding the privacy of information for health care patients went into effect April 2003. The Health Insurance Portability and Accountability Act H.I.P.A.A. requires that all medical providers, insurance companies, and others put into place controls to ensure that your personal medical information remains confidential. We are requesting that you sign this form to allow us to share protected health information with other physician's offices, your hospital and insurance company.

By signing this form, you consent to our use and disclosure of protected health information about you, for treatment, payment and health care operations. You have the right to revoke this consent, in writing, except where we have already made disclosures in reliance on your prior consent. Our Notice of Privacy Practices provide information about how we may use and disclose protected health information about you. You have the right to review our notice before signing this consent.

Authorization to Release Information to Family Members

Many of our patients allow immediate family members, such as a spouse, parent or others to call our office and request the results of tests, procedures, and medical information. Under the requirements of H.I.P.A.A., we are not allowed to give this information to anyone without your consent. If you wish to have your information released to family members, you must fill out the information below. Signing this form will give consent to release information to family members indicated. You have the right to revoke this consent, in writing, except where we have already made disclosures in reliance on your prior consent.

I authorize the Northeast Ohio Institute of Functional Medicine to release to the following the individuals. (Please initial)

Authorization to Leave Messages with Household Members/Answering Machine

It's sometimes necessary for our staff to leave telephone messages for our patients. The purpose of these messages is to remind patients that they have an appointment, to notify the patient that the medical staff would like to discuss lab or procedure results, or to ask the patient to call the Northeast Ohio Institute of Functional Medicine regarding an issue of concern. At no time will a representative of the Northeast Ohio Institute of Functional Medicine discuss your medical circumstance or condition, without your consent. This authorization will permit us to leave messages with members of your household in voicemail, or on your answering machine. You have the right to revoke this consent, in writing, except where we have already made disclosures in reliance to your prior consent. Please check the appropriate locations for which we have your permission to leave messages.

Adult Medical Questionnaire

Thank you for your interest in The Northeast Ohio Institute of Functional Medicine, Your Center for Hope and Healing. As a new patient, our ability to draw effective conclusions about your present state of health and how to improve it depends, to a significant extent, on your ability to respond thoughtfully and accurately to both these written questions and those posed by the clinician during your consultations. Health issues are usually influenced by many factors. Accurately assessing all the factors and comprehensively managing them is the best way to deal with these health challenges. Your careful consideration of each of the following questions will enhance our efficiency and will provide for more effective use of your scheduled consultation time. These questions help to identify underlying causes of illness and will also assist us to formulate a treatment plan. We appreciate your time and attentions and look forward to helping you achieve a healthier you!
